

BIG MOVE #7:

Provide Reliable Transit for Resort Corridor Employees

Overview

Over 30% of the region's jobs are along the "Resort Corridor." A large proportion of employees who work at the resorts must enter and exit through "back-of-house" entrances that are not well served by transit. On Board will develop routes and public transit services that operate directly to and from the Resort Corridor, with short waits and convenient and reliable service to employee entrances.
