

BIG MOVE #6:

Improve Connections to Major Destinations

Overview

On Board will improve connections to major regional destinations including McCarran International Airport as well as large job centers and event venues. These routes will be designed to connect residents and visitors directly to important locations using a combination of express bus routes, commuter services, and game day/event shuttles.

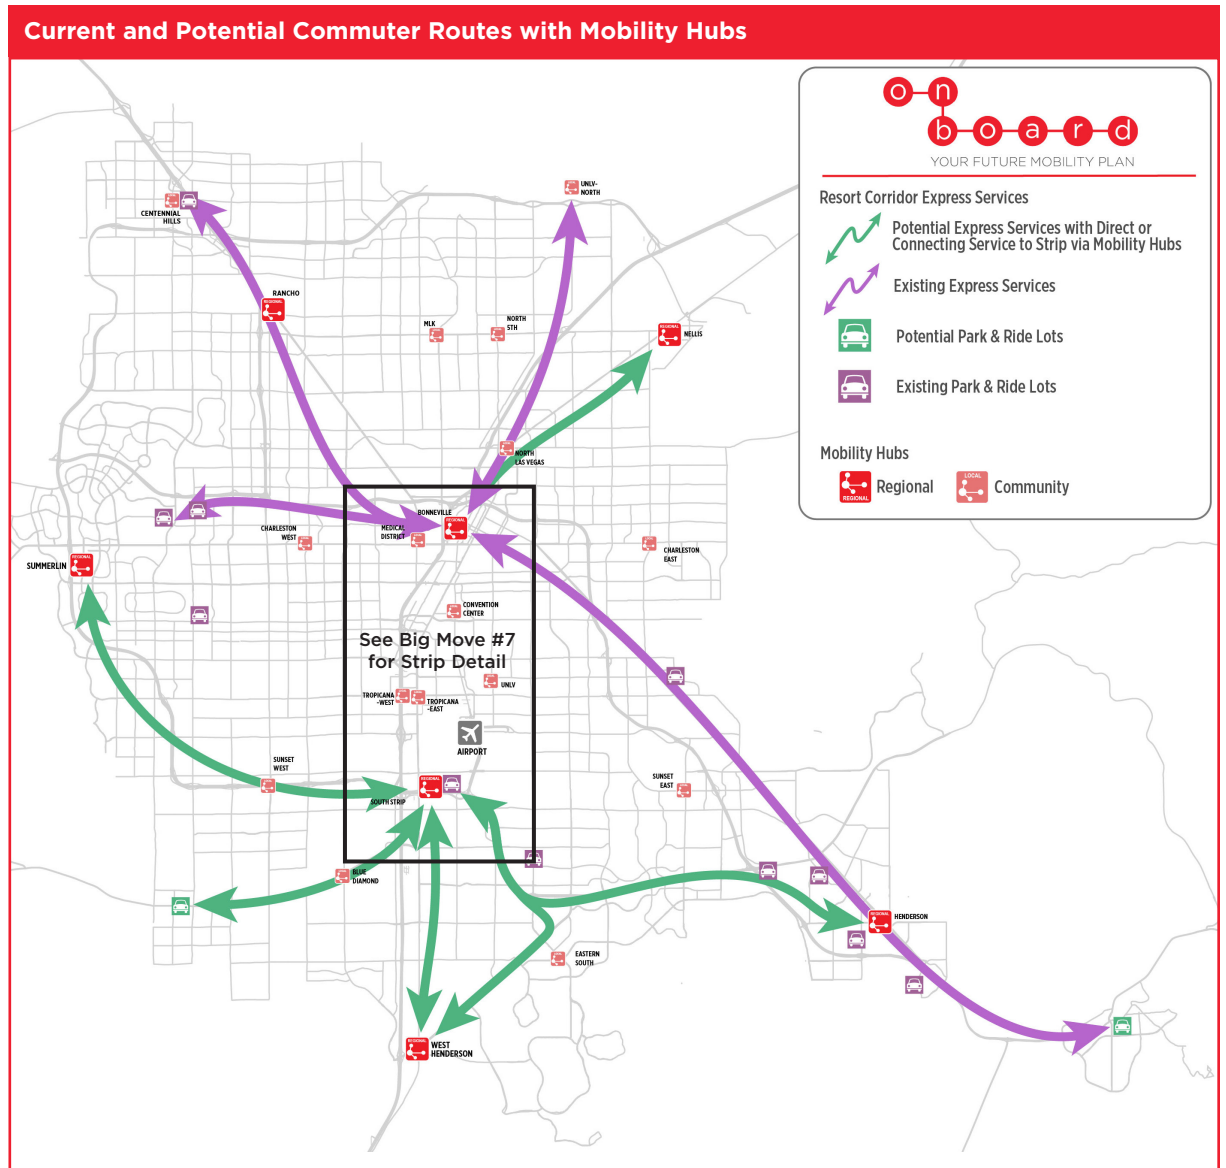

You told us...

Identified "major destinations" as preferred locations for better service **23%**

Source: RTC OnBoard User Survey, 2017

Identified "frequent and fast bus service" as most important service improvement **34%**

Source: RTC OnBoard Vision Survey, 2018

Projects and Programs

Providing improved regional connections to major destinations will consist of implementing a variety of additional services:

Implement Regional Express Routes to Resort Corridor or Downtown

Improve Commuter Facilities & Services

- Develop Park and Ride Lots with Express Service Connections to Major Destinations

Improve Airport Service and Connections

- Extend SDX Route to Airport
- Develop Airport Mobility Hub (TIBP: McCarran Multimodal Transportation Center)

Provide Game Day and Major Event Shuttles

Key Benefits

All mobility strategies generate benefits for individual travelers, the regional economy and the environment. The graphic below provides a relative scale of the benefits.

Effectiveness in Addressing Regional Priorities

Improving Connections to Major Destinations will directly help achieve the following priorities identified through extensive public outreach with nearly 80,000 people and multiple surveys that had almost 25,000 combined responses:

REGIONAL MOBILITY PRIORITIES

1	Improved Road & Transit Safety	Strong
2	Fewer Traffic Jams	Strongest
3	High Capacity Transit (including light rail)	Strongest
4	Better Connectivity	Strongest
5	Well-Maintained Roads	Less Strong
